

## Technical Sheet

# CIRE LIQUIDE RAPIDE EXPRESS SHINE LIQUID SPEED WAX

### QUICK LIQUID WAX

ESTHETIC PRODUCTS FOR HIGH QUALITY ROAD VEHICLES ★★★★★

- Applying wax after washing a vehicle will give it extra protection and facilitate subsequent maintenance.
- Repeated uses will create a barrier and greatly facilitate daily maintenance.
- Keeps your vehicle clean and shiny and look as new.
- Revives and brings out the gloss of the paint.
- Does not leave a greasy film on windows and bodywork.
- Perfect for automatic car-wash.

### DIRECTIONS :

Wash the vehicle, do not wipe off excess water or foam from the surface.  
 Spray the cold wax at a distance of about 30 cm onto the wet surface using a microfiber cloth.  
 Apply on the entire vehicle and windows. Leave on for 2 minutes,  
 and then rinse with lots of water to get a very glossy finish.

### CHARACTERISTICS :

pH: 3.00 – 5.50  
 Viscosity: <5 cPs at 25°C  
 Scent: fruity, orange and citrus  
 Colour: opaque beige liquid

### DANGER :

Health:	0	Low
Flammability:	1	Negligible
Reactivity :	2	Negligible
Personal protection :	2	See the fact sheet
